

Testimonials

"I entered into the Academy with very limited computer knowledge. I was very uneasy, scared to be starting a new life at age 61. I was put at ease quickly by Jeff and Mary and all the amazing tutors who work there. There are students of all ages. I have been treated so kindly and taught with patience, kindness and expertise. This academy is second to none!!" ~ Susan

"Thanks to APA I was able to get my GED and upgrade my computer skills. The tutors really care about your learning and I am going to miss APA. I would recommend them to anyone who likes to learn one-on-one. APA is awesome!" ~ Andrew
